

Medical, Laboratory & Technology Consultants, LLC has extensive experience in working with partners in International and US governments as well as public and private sectors. Our consultants are experts in the medical and scientific fields who, given the opportunity to expand their knowledge base, became global players and local partners.

CEO, Professor Maria Stevens Hardy, IMA (ASCP), AHI (AMT) & CLC (AMT) is a third generation member of the Healthcare Workforce. After becoming a Quality Assurance Specialist at the age of 25 traveled to many developing and resource limited countries to improve challenges in healthcare systems. The one common challenge encountered was the implementation of Quality Management Systems and the execution of quality patient care initiatives.

In 2009 she founded Medical, Laboratory & Technology Consultants, LLC a Consulting Firm which provides Educational and Technical expertise. Being a Global Leader in healthcare, MLT Consultants has extensive experience in working with International/US government, public and private sectors. MLT Consultants offers Accredited Continuing Medical Education, Medical Facility and Laboratory Accreditation & Compliance Technical Support and Capacity Building Scientific and Technical Advising.

As a Health Educator, Maria studied Biology at Howard University in Washington, DC, Biomedical Science Research (BioTech) at University of Maryland School of Medicine, in Baltimore, Maryland. She is a member of the American Society of Clinical Pathology, a Certified Allied Health Instructor and Certified Laboratory Consultant. Prof. Hardy has educated over 1500 participants worldwide. She has been featured on ABC, CBS, Fox News, NBC and NHK.

Inspiration is drawn from the countless lives we have touched in enhancing and improving their level of patient care. Many patients are in situations where their local Doctor or Healthcare provider is their ONLY option for treatment and source of hope. Encouraging the principle of "doing the best you can with what you have" has led Medical, Laboratory & Technology Consultants to be able to influence and support many sustainable efforts in resource limited countries and promote "Pride and Ownership" of their healthcare programs for their countrymen.

MEDICAL, LABORATORY & TECHNOLOGY CONSULTANTS

WWW.MLTCONSULTANTS.COM

Our international and domestic experience includes collaborating with HRSA, PEPFAR, AIDS Relief, Centers for Disease Control, Catholic Relief Services, The Papanicolaou Society, International Academy of Pathology, Federation of South African Pathologists, the Federal Communication Commission, University of Maryland Institute of Human Virology and other implementing partners. MLT Consultants' range of expertise include international and domestic issues in regards to science, capacity building, budgetary and fiscal responsibilities, national security, humanitarian issues (aid), research and development, international program development, developing nations, HIV/AIDS, PEPFAR, and Health pandemics.

This done in conjunction with MLT Consultants' international experience coordinating efforts between the CDC, UMD, Government of Nigeria Ministry of Health, Government of Rwanda Ministry of Health and other Implementing Partners. Managing program operations exhibits our knowledge base of the relevance of pertinent HIV/AIDS, clinical and laboratory healthcare enterprises with respect to global initiatives and policies. From past relationships with International Governments, Nationalized Ministries of Health, and NGO humanitarian groups such as the Bill and Melinda Gates and Clinton Foundations, MLT Consultants can provide a 360 degree view of a project and give perspective from various angles to provide the best overall result for our clientèle.

As a Technical Writer Professor Hardy has penned scientific abstracts, papers and articles. Her work has been featured in Advance for the Administrators of the Laboratory, Medical Laboratory Observer, Physician's Office Resource, American Academy of Family Physicians- PT CE program and many others. She also creates blogs for ASCP ONELab *Under the Microscope* and Global Risk Community as the Healthcare contributor.

Procurement and logistics are additional specialties of MLT Consultants. With years of high-end scientific and technical equipment acquisition, our clients can rest assured that the products they require will be tailored for any project SOW, budget and time frame. From professional development and laboratory experience (academia and private industry), participating in various national and international arenas, MLT Consultants has made its mark in the Washington DC market as a Private Firm. We look forward to working with you and appreciate your time.
